FALL & WINTER CAPSULE

[15 PIECES, 100 OUTFITS]

thefoxandshe.com

hi there!

Thank you so much for downloading my capsule wardrobe! I know you are going to love it! This capsule is full of pieces you most likely already own—wardrobe basics that are classic and cute and will serve you for years to come.

If you're new around here, I'm Blair, a wife and mom, lover of casual style and passionate about home decor, wellness and clean living—which you'll see reflected in my blog content.

After having my boys, I found myself reaching for the basics more and more. Why? Because they looked amazing, and made me feel confident and comfortable in my own skin.

It's so easy to get hung up thinking we need more and more stuff with Pinterest and Instagram these days, and I hope this capsule reminds you that you really only need a few key pieces to have killer style!

I've broken it down into sections that feature a top and shoe combo and then show you 8 ways to wear that combination. Get excited, because your small wardrobe just got a lot more versatile!

If you want to see more styles of these pieces, click [here](#) to see my capsule wardrobe blog post that I keep updated with in-stock items! I've also included some ideas for handbags and simple dainty jewelry as well.

And, of course, feel free to put your own spin on these! Add your favorite handbag, a different coat, pair of shoes or jewelry. Your style should be unique—like you, so have fun with it!
