

The Fox & She

EVERY DAY CAPSULE

CREATE 80+ TIMELESS OUTFITS FROM
13 ESSENTIAL WARDROBE PIECES

thefoxandshe.com

ready, set, get dressed!

Thank you so much for downloading my Every Day Capsule wardrobe & welcome to The Fox & She! I'm Blair—wife, mom, blogger and artist, and my goal is to help you **get more** out of your closet instead of convincing you that you *need* more.

I asked my readers what pieces they thought **EVERY WOMAN** most likely already had in their closet. These 13 pieces are representative of their answers.

Before you jump in, pop into your closet and see which of these pieces you have. Maybe you don't have exactly this piece, but something very similar—that's perfect!

Let this be a jumping off point! Swap a white tee for a white eyelet top or skinny jeans for ankle jeans, or tan booties for black booties. These 80+ outfits are timeless, and versatile and made from some of the best wardrobe building blocks. Use this guide to find any holes you need to fill in your closet, or simply to get ideas on how to wear the other pieces you already own. Less is truly more!

I've broken this guide down into sections based on footwear and given you tons of options for each way to wear it. You'll never feel like you have "nothing to wear" when you realize how easy it is to mix and match your basics to create amazing,

every day outfits that leave you feeling cool and confident in your skin.

Lastly, make sure to put your own spin on things too! Pair your favorite handbag, swap your shoes out, add jewelry or a headband—whatever suits you. Just have fun!

In the next page, you can click on any item to grab the exact piece, or check out this blog post (link below!) where I include more options for each piece!
